MINGLEBOX PROJECT

START

INTRODUCTION

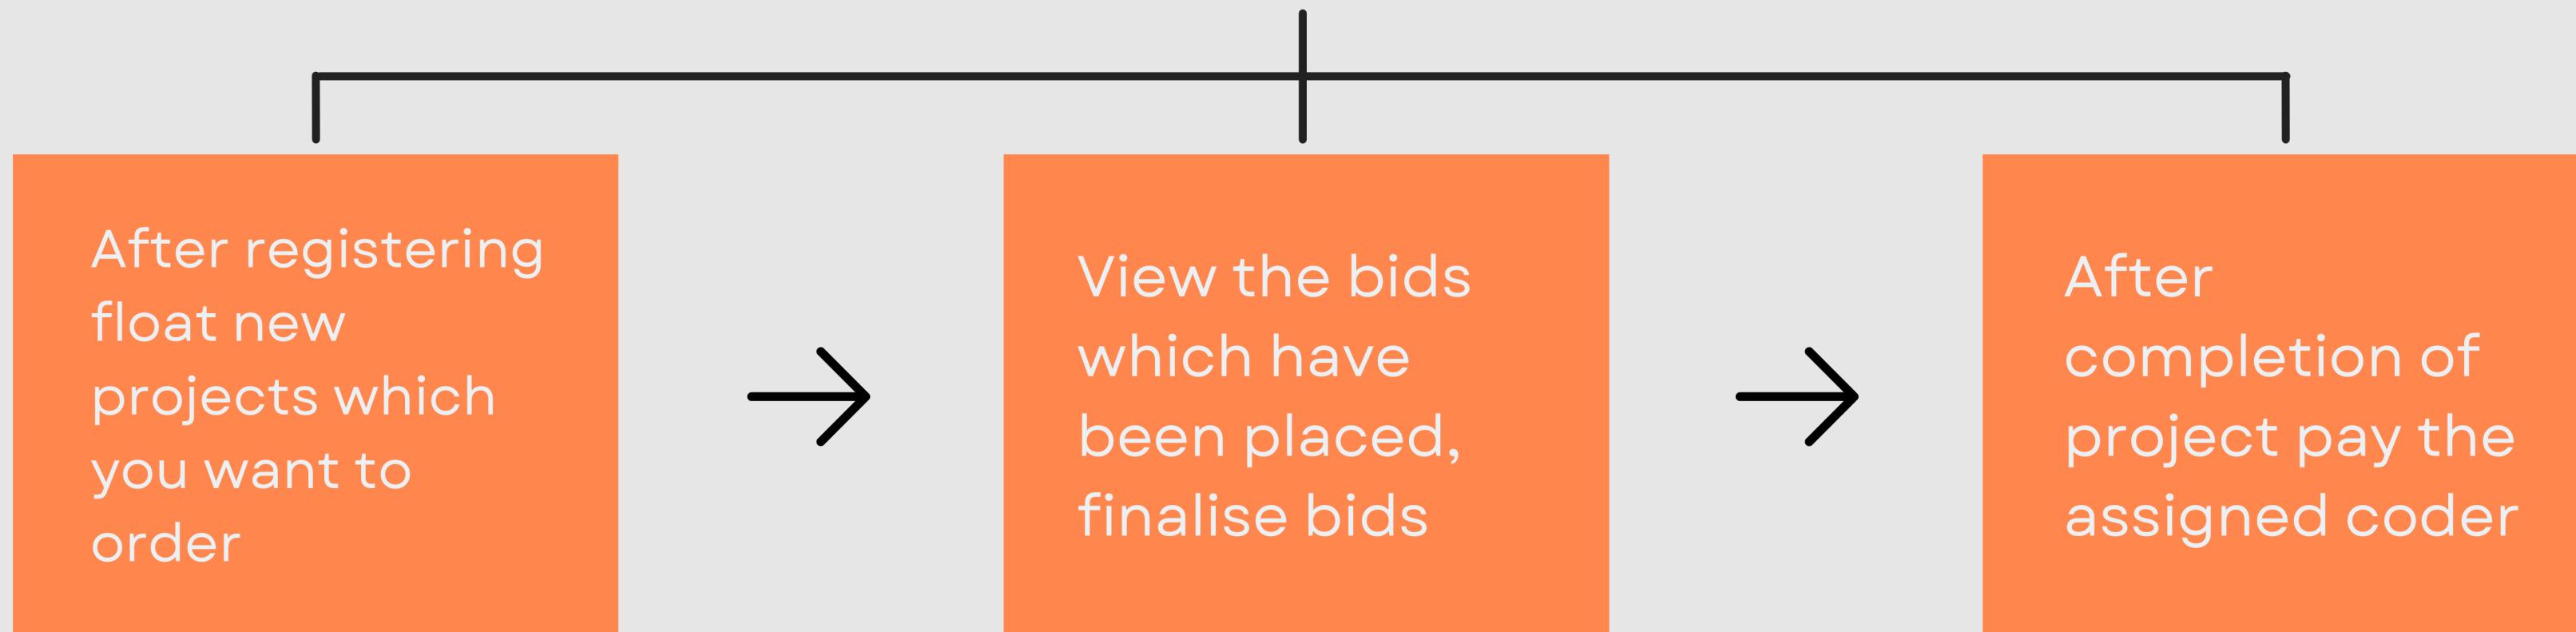

- Marketplace where people who need custom software developed can find coders
- Buyers register projects and coders bid for them

BUYERS

Functionalities

CODER

Project Timeline

BIDDING STRATEGY

Various Coders can submit bids for a project which matches their skillset. The coder placing the lowest bid will win.

- **RATING OF CODERS**

Users shall be able to hire coders based on their ratings too

- **BETTER EXCEPTION HANDLING**

More foolproof exception handling methods can be used

- **DESIGN**

Better design patterns can be implemented with further compartmentalization

SCOPE OF IMPROVEMENT:
